

**OAKDALE ELECTRIC COOPERATIVE
COMMERCIAL SERVICE - THREE PHASE
RATE 700**

EFFECTIVE DATE

This rate is effective through the meter reading date in May 2017.

AVAILABILITY

Available to all three-phase consumers of the Cooperative who meet the following requirements:

- (a) The measured maximum monthly demand exceeds 50 kW, but is less than 300 kW.
- (b) The installation of motors or other apparatus on the system shall be governed by Board Policy #59.

TYPE OF SERVICE

Three-phase at available secondary voltages.

MONTHLY RATE - SUMMER

- | | |
|---------------------|-----------------|
| (a) Facility Charge | \$48.00 |
| (b) Energy Charge | \$0.075 per kWh |
| (c) Demand Charge | \$15.00 per kW |

MONTHLY RATE - WINTER

- | | |
|---------------------|-----------------|
| (a) Facility Charge | \$48.00 |
| (b) Energy Charge | \$0.067 per kWh |
| (c) Demand Charge | \$12.40 per kW |

Any applicable taxes and fees will be added to each monthly bill for electric service.

PURCHASED POWER COST ADJUSTMENT

The above rates shall be increased or decreased with any increase or decrease in the Cooperative's purchased power costs.

DEMAND CHARGE

The Demand charge for the month shall be the maximum recorded fifteen minute interval demand in kilowatts.

BILLING PERIODS

The summer season is four (4) months from the meter reading date in May through the meter reading date in September. The winter season is all other months.
