SAVE MONEY WITH OUR ENERGY EFFICIENCY REBATES

Are you finishing up some home-improvement projects before the cold weather sets in? If you are, and if any of those projects involve making your home more energy efficient, we have some rebates that can help you save money.

Incentive rebates are available for replacing old appliances with qualified, energy-efficient models; installing new HVAC equipment; and even replacing your outdated light bulbs with energy-saving LED bulbs. We even have rebates for safe recycling of your old freezer, refrigerator, or air conditioner.

You can check out all available rebates on our website, www.oakdalerec.com. Click on the 2017 Incentive Rebate Forms tab under Programs & Services.

Rebate forms and required documentation must be submitted to Oakdale Electric Cooperative no later than three months after the purchase or recycling date. Rebates are in place through December 27, 2017. Funds are limited, so please submit as soon as possible.

Did you know that you can pay your bill directly through SmartHub?

You will see your payment posted the same day!

Members are now able to view the output of the SunnyOak Community Solar Garden by visiting our website:
